The use of metric prefixes dates back to the inception of the French metric system, in 1793. It was originally decided that the submultiples of all basic units would be prefixed with a Latin root, corresponding to the decimal divisor (deci for 10, centi for 100, milli for 1000), whereas the decimal multiples would be prefixed with a Greek root, corresponding to the decimal multiplier (deca for ...

Military slang is a set of colloquial terms which are unique to or which originated with military personnel. They are often abbreviations or derivatives of the NATO Phonetic Alphabet, or otherwise incorporating aspects of formal military concepts and terms. Military slang is also used to reinforce the (usually friendly) interservice rivalries. Some of these terms have been considered gregarious ...

In this context, an "Electrick" or "Electrick body" was a non-conductor, or an object capable of attracting "light bodies" (like bits of paper) when excited by friction; a piece of amber is "an Electrick", while a piece of iron is not. "Electricity", then, was simply the property of behaving like an electric, in the same way that "elasticity" is the property of behaving like an elastic. ("
