The Periodic Table - Awesome Science Teacher Resources

As soon as the genetic code was biochemically cracked (Nirenberg et al., 1965), its non-random

structure became evident (Woese, 1965, Crick, 1968). The most obvious pattern that emerged in the code was its regular redundancy. The code comprises 16 codon families beginning with the same pair of bases, and these families generally consist of either one or two equal series of codons mapped to one ...
