142 Human Genetic Disorders Answer

Defining race. Modern scholarship views racial categories as socially constructed, that is, race is not intrinsic to human beings but rather an identity created, often by socially dominant groups, to establish meaning in a social context. This often involves the subjugation of groups defined as racially inferior, as in the one-drop rule used in the 19th-century United States to exclude those ...

Race (human categorization) - Wikipedia

In common usage, the word "human" generally refers to the only extant species of the genus Homo—anatomically and behaviorally modern Homo sapiens.. In scientific terms, the meanings of "hominid" and "hominin" have changed during the recent decades with advances in the discovery and study of the fossil ancestors of modern humans.The previously clear boundary between humans and apes has ...

The emotional side effects many women experience after an abortion. Abortion can emotionally affect each woman differently. Some women report a sense of relief after having an abortion. The reasons for relief also vary from woman to woman.

Emotional Side Effects After an Abortion

INTRODUCTION — Human papillomavirus (HPV) is a sexually transmitted pathogen that causes anogenital and oropharyngeal disease in males and females. Persistent viral infection with high-risk HPV genotypes causes virtually all cancers of the cervix. The high-risk HPV genotypes (or "types") 16 and 18 cause approximately 70 percent of all cervical cancers worldwide, and types 31, 33, 45, 52, and ...
