Molecular Orbitals in Inorganic Chemistry: Hunt Research ...

The term metric multidimensional scaling made it's first appearance in 1938 in Richardson's Multidimensional Psychophysics. Several people before Richardson, including Boyden (1933), had used the concept, although they didn't call it multidimensional scaling. Boyden, a biologist, used the technique to create models for relationships between common amphibia.

A virtual learning environment (VLE) is a system that creates an environment designed to facilitate teachers' management of educational courses for their students, especially a system using computer hardware and software, which involves distance learning. In North America, a virtual learning environment is often referred to as a "learning management system" (LMS).
