Islamic religious spaces are present in the multi-user virtual environment Second Life. Because they are designed after emotionally-charged real life sacred sites, such as Mecca, and because their designers instruct users to follow behavioral regulations typical of real life Islamic sacred spaces, the virtual spaces are interpreted as ambiguously sacred.

Former Turkish minister launches party to challenge Erdogan

A camera works with the light of the visible spectrum or with other portions of the electromagnetic spectrum. A still camera is an optical device which creates a single image of an object or scene and records it on an electronic sensor or photographic film. All cameras use the same basic design: light enters an enclosed box through a converging/convex lens and an image is recorded on a light ...
