Several special education approaches have been developed for students with dyslexia. Adaptive technology, such as specialized computer software, has resulted in recent innovations helpful to many people with dyslexia.. One factor that characterises the field of dyslexia remediation is the stream of alternative therapies for developmental and learning disabilities.

Management of dyslexia - Wikipedia

Take Notes in Lectures – Visual learners have a tough time remembering the every word the professor says from the podium. That’s why it is critical to take notes during lectures. Be sure you also write down what is written on the board. Once class has ended, re-read and re-write your notes since that process of reading and seeing the words will help commit the information to memory.

Many students who struggle in school do not fall into traditional diagnostic categories. These students often have weaknesses in the conceptual building blocks. This chapter from the book Learning Disabilities and Challenging Behaviors: A Guide to Intervention and Classroom Management reviews the abilities related to thinking with language and images and using strategies.
