Secondary injection test and primary injection test, the two sides of the coin. The secondary injection test may involve the testing of individual components, such as the important relay testing, but it is also essential to test the entire protection circuit, from beginning to end, which is preferably performed with primary injection testing, which also tests the CT/VT ratios, polarity and ...

The effects of soil compaction on crops and soil properties are complex (Batey, 1990) and since the state of compactness is an important soil structural attribute, there is a need to find a parameter for its characterization, such as relative bulk density, that gives directly comparable values for all soils (Håkansson and Lipiec, 2000). Since soil bulk density is the mass of dry soil per unit ...
