It will not waste your time. bow to me, the e-book will totally impression you other concern to read. Just invest little time to admittance this on-line message unanswerable questions in science as competently as review them wherever you are now.

Unanswerable Questions In Science

The phrase unanswered questions or undeclared questions (Sanskrit avyākṛta, Pali: avyākata - "unfathomable, unexpounded"), in Buddhism, refers to a set of common philosophical questions that Buddha refused to answer, according to Buddhist texts. The Pali texts give only ten, the Sanskrit texts fourteen questions.

- 100 Brave and Interesting Questions

Question: "Is God man-made? Did man create the idea of God?" Answer: Some people argue that God is man-made; that is, the concept of God is merely a human fabrication handed down through the generations from those who didn't know any better. They claim that the idea of a God or gods is simply the way human beings explain things that are too difficult to understand.

Is God man-made? Did man create the idea of God?

Logical positivism: Logical positivism, a philosophical movement that arose in Vienna in the 1920s and was characterized by the view that scientific knowledge is the only kind of factual knowledge and that all traditional metaphysical doctrines are to be rejected as meaningless. A brief treatment of logical positivism
