During the Golden Age of Islam, especially during the 9th and 10th centuries, mathematics saw many important innovations building on Greek mathematics. The most notable achievement of Islamic mathematics was the development of algebra. Other notable achievements of the Islamic period are advances in spherical trigonometry and the addition of the decimal point to the Arabic numeral system.

Can you live comfortably in California making \$60,000 a year? It really depends on what you define as comfortably. We should note that the median household income in the US is \$50,000 and in California it isn't much higher. California gets a notorious rap of being an expensive state but this is if the entire focus is on coastal regions.
