A crossword is a word puzzle that usually takes the form of a square or a rectangular grid of white- and black-shaded squares. The game's goal is to fill the white squares with letters, forming words or phrases, by solving clues, which lead to the answers. In languages that are written left-to-right, the answer words and phrases are placed in the grid from left to right and from top to bottom.

Why you don't need a representative sample in your user research. 3 April, 2018 - Engaging a representative sample of participants in user research sounds like a good idea but it is flawed. It requires lots of participants, does not work in an agile development environment, stifles innovation and reduces your chances of finding problems in small sample usability tests.
