WELCOME TO THE PROTECTED AREAS. The preservation and protection of the natural and cultural heritage of our country depends on our actions and consciousness.

#### CONAF

Definition. The Department of Defense (DoD) Hazardous Material Information Resource System (HMIRS) uses Hazard Characteristic Codes (HCC) to classify materials by their primary hazard characteristic for the safe segregation and storage of hazardous materials. There are 10 basic classes defined by letters A to Z, and each of these is broken down into additional subclasses (see below).

#### The MSDS HyperGlossary: Hazard Characteristic Code (HCC)

Adhesion is the tendency of dissimilar particles or surfaces to cling to one another (cohesion refers to the tendency of similar or identical particles/surfaces to cling to one another). The forces that cause adhesion and cohesion can be divided into several types. The intermolecular forces responsible for the function of various kinds of stickers and sticky tape fall into the categories of ...

Alkaloid-containing plants have been used by humans since ancient times for therapeutic and recreational purposes. For example, medicinal plants have been known in the Mesopotamia at least around 2000 BC. The Odyssey of Homer referred to a gift given to Helen by the Egyptian queen, a drug bringing oblivion. It is believed that the gift was an opium-containing drug.
