NASA is a world leader in climate studies and Earth science. While its role is not to set climate policy or prescribe particular responses or solutions to climate change, its purview does include providing the robust scientific data needed to understand climate change.

Mitigation and Adaptation | Solutions - Climate Change ...

Most school districts and states don't look at all the right data to improve school attendance. They track how many students show up every day and how many are skipping school without an excuse, but not how many are missing so many days in excused and unexcused absence that they are headed off track academically.

10 Facts About School Attendance - Attendance Works

This session highlights key findings from the September brief, Data Matters: Using Chronic Absence to Accelerate Action for Student Success, from Attendance Works and the Everyone Graduates Center. The brief features a national and state analysis of how many schools face high levels of chronic absence, reflects upon how those patterns can vary by state, and discusses how to use chronic absence ...

Though it has only been around for little more than two decades, the Family Medical Leave Act (FMLA) has made a very serious impact in the way employers view and administer absence management. The guidelines in which most employers have to operate within under the FMLA can be challenging, at times, as is compliance documentation, but all in all, employers do recognize that the law is an ...
