Data Advantage Group. Data Advantage Group, Inc. is a leading provider of enterprise information asset management software. Data Advantage Group's award-winning MetaCenter® Platform is considered the gold standard in meta data management solutions.

### **Enterprise Data World 2019 | Boston**

Abstract. Risk identification is a longstanding, although often neglected, task in projects today. While project managers and teams work to identify risks, they frequently encounter barriers to the risk management process that promote this neglect, resulting in projects that are more prone to challenges in scope, time, and cost expectations.

Information systems (IS) are formal, sociotechnical, organizational systems designed to collect, process, store, and distribute information. In a sociotechnical perspective, information systems are composed by four components: task, people, structure (or roles), and technology.. A computer information system is a system composed of people and computers that processes or interprets information.
