EASC111-LabJ - Illinois Central College

1 Key Name: _____ Lab 6: Surface Weather Map Analysis Objective: This lab is designed to introduce students to the various coding of time and meteorological variables associated with synoptic weather maps. A detailed analysis of surface weather conditions along with locations of national weather service forecast offices is presented.

Lab6 ANSWER KEY online - Key Name Lab 6 Surface Weather Map...

A large body of air with the same characteristics of temperature and moisture content is known as an air mass. An air mass receives its characteristics from the location it forms, known as its source region. Fronts represent the advancing edge of the air mass at ground level. Only low pressure systems have fronts, due to air masses converging at the low pressure.

Weather - Regents Earth Science

Background: The purpose of this lab is to illustrate the construction and use of weather maps and to help you identify air masses, fronts, and mid-latitude cyclones on weather maps. Every six hours atmospheric data are collected at approximately 10,000 surface weather stations (including our own weather station here at Barnes.)
