It is designed specifically for my dining table which is natural ash. Many fabrics don't work on this table but denim does. The runner is pieced together from many pairs of old jeans (yet another collection of mine!)

Ashbee Design: River of Jeans • Table Runner

I am part Swedish and for my entire life I have been wearing clogs and loving tomte. I have posted about the little Swedish elves before and you can read about their history here. In nutshell they are temperamental house helpers that, in modern times have become associated with Christmas due to their red hats and beards.

Ashbee Design: DIY Swedish Tomten

How to determine the sun, moon, and stars' path across the sky at any latitude, and at any time of the year. A challenging geometric problem: Derive the sun path (or day arc of the sun), the sun's trajectory in the sky, given a latitude, and the day of the year, e.g. 35° N, April 23. I tried, and failed at first, to deduce accurately the shape of the sun paths.

Notes from Noosphere: The simple geometry of sun, moon ...

Two contracts available because I know that not everyone uses Spelling City. :) Just click on the pics or to download a copy. If you download, I'd love it if you followed my blog or my blog's Facebook page! I also have an entire bundle of spelling contracts for the entire year available in my Teachers Pay Teachers store.

Fourth and Ten: April Spelling Contract

Wrapped round twice. Wrapped round three times. Hi, I have finished the Forest Glade Cowl, I'm really happy with the stitch technique that developed from a yarn over and a knit 2 together.

The Forest Glade Cowl Pattern - Natural Suburbia

The word "fractal" often has different connotations for laymen as opposed to mathematicians, where the layman is more likely to be familiar with fractal art than the mathematical concept. The mathematical concept is difficult to define formally, even for mathematicians, but key features can be understood with little mathematical background.

Fractal - Wikipedia

Shape to Fabrication 2016 is on next week, and I'm really excited about returning to London to attend and present at this event. There's an amazing line up of speakers and the opportunity to speak with the McNeel staff attending makes this an event not to be missed. Thanks to Simply Rhino for all the effort to organize this. It's 7 years ago that I last attended Shape To Fabrication, number 3 ...

Online homework and grading tools for instructors and students that reinforce student learning through practice and instant feedback.

WebAssign

The next thing we need to do is to sort out the geometry, so that we can compare what we think the geometry should be to the actual data. In most software the setting up of a 2D marine geometry is pretty simple – you assume the streamer is being towed directly behind the boat (and so the offset is a simple function of the channel number), and the CDP number is a function of the shot number ...

The cards below are one of Big Buddy's favorite things to borrow from our local library. Not only do the cards include a wide variety of dinosaurs (the popular and the more obscure), but the graphics on the back of the cards make it possible for even pre-readers to characterize, sort, and classify them.

Multi-speed Europe or two-speed Europe (called also "variable geometry Europe" or "Core Europe" depending on the form it would take in practice) is the idea that different parts of the European Union should integrate at different levels and pace depending on the political situation in each individual country. Indeed, multi-speed Europe is currently a reality, with only a subset of EU countries ...
