Denmark has a tradition of covering your friends with cinnamon if they are still unmarried on their 25th birthday. more... LED lighting is a lamp or other light that uses light-emitting diodes (LEDs) as a source of illumination. Most lighting comes from an incandescent or fluorescent light bulb ...

What is LED Lighting? (with pictures) - wisegeek.com

History. Sir Isaac Newton computed the speed of sound in air as 979 feet per second (298 m/s), which is too low by about 15%. Newton's analysis was good save for neglecting the (then unknown) effect of rapidly-fluctuating temperature in a sound wave (in modern terms, sound wave compression and expansion of air is an adiabatic process, not an isothermal process).

Speed of sound - Wikipedia
