Management Information Systems Chapter 10 Flashcards | Quizlet

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...

To decide to be an accountant is no more descriptive than deciding to be a doctor as there are a variety of specialty areas. Many accountants engage in the practice of public accounting, which involves providing audit, tax, and consulting services to the general public. To engage in the practice of public accounting usually requires one to be licensed.
