Vectors Worksheet . Vector worksheets:. Vectors and scalars are one of the most important chapters or concepts in Mathematics and Physics.. So to sharpen your knowledge here are some Multiple choice questions or objective questions based on vectors and scalars.

Vectors Worksheet - Science HQ

The Law of Universal Gravitation states that every object in the universe attracts every other object in the universe with a force that has a magnitude which is directly proportional to the product of their masses and inversely proportional to the distance between their centers squared.

PhysicsLAB: The Law of Universal Gravitation

A worksheet that assesses the pupils' understanding of hydraulics and builds up the levels of questioning and calculations (hopefully!). The questions go from easy to hard, so the pupils in a class should work through at their own rate, and hopefully there's a challenge there for most pupils.

Pressure and hydraulics worksheet by olivia_calloway ...

1. Two vectors of the same magnitude are added; one pointing east, one west. The magnitude of the resultant vector is a. 0 b. 1 c. 2 d. 3. 2. Which of the following is not a vector quantity?
