Welcome to the Romance of the Three Kingdoms English/Chinese Hanzi Project. The objective is simple. We wish to create an ever-growing list of Chinese officers with their names presented in both English Romanizations and Chinese, along with the decimal entity values needed to display them on non-Unicode websites and forum (e.g. phpBB 2).

## **Three Kingdoms Officer Names (Chinese/English)**

Eukaryote cells include a variety of membrane-bound structures, collectively referred to as the endomembrane system. Simple compartments, called vesicles and vacuoles, can form by budding off other membranes. Many cells ingest food and other materials through a process of endocytosis, where the outer membrane invaginates and then pinches off to form a vesicle.

## **Eukaryote - Wikipedia**

The epigenome is a multitude of chemical compounds that can tell the genome what to do. The human genome is the complete assembly of DNA (deoxyribonucleic acid)-about 3 billion base pairs - that makes each individual unique. DNA holds the instructions for building the proteins that carry out a variety of functions in a cell.

Biology is the study of life and all living organisms, so we must be clear about the difference between living and non living "things". All living organisms have the potential to carry out 7 basic processes, i.e. special actions which may be called the characteristics of life. These processes are universal, but when you consider the fine details you will see that they are carried out in ...
