Excel's VLOOKUP function is a basic but powerful feature available for you to make the most of the data in your spreadsheets. For new users, VLOOKUP may seem like a mystical, complicated affair, but when you break it down, it becomes a simple ally for getting your data into the right places, whether you are pulling it from other workbooks, worksheets, or just across the page.

Why a Scientific Format? The scientific format may seem confusing for the beginning science writer due to its rigid structure which is so different from writing in the humanities. One reason for using this format is that it is a means of efficiently communicating scientific findings to the broad community of scientists in a uniform manner.

Mistake #8: Multitasking. To get on top of her workload, Linda regularly writes emails while she chats on the phone to her clients. However, while Linda thinks that this is a good use of her time, the truth is that it can take 20-40 percent more time to finish a list of jobs when you multitask, compared with completing the same list of tasks in sequence.

CAPM Beta – When we invest in stock markets, how do we know that stock A is less risky than stock B. Differences can arise due to the market capitalization, revenue size, sector, growth, management etc. Can we find a single measure which tells us that which stock is more risky? The answer is YES and we call this as CAPM Beta or Capital Asset Pricing Model Beta.
