In the aftermath of the dispiriting comments following last week's post on the Parapsychological Association, it seems worth spelling out in detail the claim that parapsychological phenomena are inconsistent with the known laws of physics. The main point here is that, while there are certainly many things that modern science does not understand, there are also many things that it does ...

How is this different from Equal Gain Combining (EGC) scheme ?? The output SNR of EGC is the sum of the SNRs on all branches. Also, as Prof. RaviRaj Adve mentioned in his note on Receive Diversity that for Maximal Ratio Combining, "The output SNR is, therefore, the sum of the SNR at each element." (Just next to eq. 26, page 7)
