What are the Symptoms of Household Mold Exposure? There are a lot of things that make us sick. From the common cold to more serious viruses, every year brings new germs. But what if it isn't a germ that is making us sick? What if it is something else? What if it is something growing in our homes? When a person feels ill they may not immediately consider the cause to be mold.

This post was triggered by someone reaching here with the search "What is inside peach seeds that's poison". I almost decided to laugh about it like on all other silly search phrases leading here, but then figured I should at least check if maybe it's not silly.. And it turns out that peach seeds actually contain Cyanide, in the form of Amygdalin.
