Office is a desktop program and you should not use that acct in the Mail App. Create another email acct at Outlook.com (not related to Office, formerly Hotmail so it's a free acct--good for junk mail) and use that address in the Mail App instead of your real acct. Open Set Default Programs, Mail and uncheck MS Office's Outlook Mail for the Mailto selection.

Clicking on an email link opens up Windows Mail app, how ...

Note: When you add an account code on the fly, the application adds the code to the Account Segments screen without a description. The code description is not required, but you can add it at any time using the following steps. Choose Setup > Account Segments to open the Account Segments screen.; Select the account segment for which you added the new code, and then click the Edit button.
