Reality is the sum or aggregate of all that is real or existent, as opposed to that which is merely imaginary. The term is also used to refer to the ontological status of things, indicating their existence. In physical terms, reality is the totality of the universe, known and unknown. Philosophical questions about the nature of reality or existence or being are considered under the rubric of ...

As an amusing side note, in a science essay called "The Sight Of Home" Isaac Asimov once calculated how far an interstellar colony would have to be from Terra before Sol was too dim to be seen in the colony's night sky with the naked eye. Turns out that colonies further than 20 parsecs (65 light-years) cannot see Mankind's Homestar, because Sol's apparent magnitude is dimmer than 6.

We study the link between political transitions and land reform enactments for countries' independent periods. The Polity2 scores are available to compute political transitions for 158 countries. Of the 372 land enactments we code, 350 occurred in countries' independent periods and 332 have an associated Polity2 score in the country-year row. Table 1 provides summary statistics of the key data ...
