Advanced Placement Chemistry (AP Chemistry or AP Chem) is a course and examination offered by the College Board as a part of the Advanced Placement Program to give American and Canadian high school students the opportunity to demonstrate their abilities and earn college-level credit. AP Chemistry has the distinction of having the lowest known test participation rate, with 49.5% of AP Chemistry ...

AP Chemistry - Wikipedia

AP Chemistry is a college-level course in chemistry that is offered by many high schools in the United States and other countries. It is designed to be equivalent to a first-semester college course in chemistry. Students who take AP Chemistry are typically expected to have completed a year of high school chemistry and algebra before enrolling in the course.
