Let's not forget about $E=mc^2$, the famous equation which has been degraded into nothing but a complex-looking decoration in everything from kids' cartoons to science shows. ($E=mc^2$ is actually Albert Einstein's formula for mass-energy equivalence; far more people have heard of it than have any idea of what it actually means). Especially comical if it's pronounced "eeyemseetwo" by people who don't ...

E = MC Hammer - TV Tropes

A virtual learning environment (VLE) is a system that creates an environment designed to facilitate teachers' management of educational courses for their students, especially a system using computer hardware and software, which involves distance learning. In North America, a virtual learning environment is often referred to as a "learning management system" (LMS).

History of virtual learning environments - Wikipedia

Rendering or image synthesis is the automatic process of generating a photorealistic or non-photorealistic image from a 2D or 3D model (or models in what collectively could be called a scene file) by means of computer programs. Also, the results of displaying such a model can be called a render. A scene file contains objects in a strictly defined language or data structure; it would contain ...
