World history or Global history (not to be confused with diplomatic, transnational or international history) is a field of historical study that emerged as a distinct academic field in the 1980s. It examines history from a global perspective. It is not to be confused with comparative history, which, like world history, deals with the history of multiple cultures and nations, but does not do so ...

What is science? Science is the concerted human effort to understand, or to understand better, the history of the natural world and how the natural world works, with observable physical evidence as the basis of that understanding 1.It is done through observation of natural phenomena, and/or through experimentation that tries to simulate natural processes under controlled conditions.

People live in the present. They plan for and worry about the future. History, however, is the study of the past. Given all the demands that press in from living in the present and anticipating what is yet to come, why bother with what has been? Given all the desirable and available branches of ...

Ancient history as a term refers to the aggregate of past events from the beginning of writing and recorded human history and extending as far as the post-classical history. The phrase may be used either to refer to the period of time or the academic discipline. The span of recorded history is roughly 5,000 years, beginning with Sumerian Cuneiform script; the oldest discovered form of coherent ...

Abstract. The biblical story of the Tower of Babel is believed by many to be the record of a real historical event that took place after the worldwide Flood, at a time when the earth's population still lived together in one place.

**Where in the World Is the Tower of Babel? | Answers in Genesis**

What Can We Estimate About Population in Prehistory and History? Any estimate of the total number of people who have ever lived depends essentially on two factors: the length of time humans are thought to have been on Earth and the average size of the human population at different periods.
