I, as many people in this group, am learning the japanese language. As one of my main tools, I'm using the Genki textbooks and workbooks, but the problem is, I don't have an answer key for the workbook to compare my answers to, so I don't know wether I am making mistakes or not; therefore, I cannot learn from my own mistakes.

I was able to avoid this by ensuring that all mandatory metadata fields have default values set. Then I have no issues using VBA to save to SharePoint. Once saved then the workbook can be reopened and use VBA code to change any metadata fields from their default value to something else if required.
