## Advanced Macroeconomics Solutions

Definition: Macroeconomics is the branch of economics that studies the behavior and performance of an economy as a whole. It focuses on the aggregate changes in the economy such as unemployment, growth rate, gross domestic product and inflation. Description: Macroeconomics analyzes all aggregate indicators and the microeconomic factors that influence the economy.

You don't need my indicators to do what I'm doing here. Every indicator on my chart is a derivative of a Bollinger Band. I've been trading forex and crypto for several years now and would like to share some of my findings. Let me ask an important question. Would you ever expect to have a trading edge using the same strategy, default setting indicators, and breakout patterns as everyone else?
