The Biology Project, an interactive online resource for learning biology developed at The University of Arizona. The Biology Project is fun, richly illustrated, and tested on 1000s of students. It has been designed for biology students at the college and high school level, but is useful for medical students, physicians, science writers, and all types of interested people.

The Biology Project

What I do: use View > Window > New Window to open the current workbook in a different application window. Use each window to display one of the sheets you're working with. You can now switch between them using the regular Alt+Tab (on Windows).. This method has another benefit: a workbook can be open in more than two windows, each displaying a different worksheet.

Excel shortcut: switching back and forth between that last ...
