### **Use Iphone Car Solution**

Though we've reviewed hundreds of iPhone-compatible accessories since last June, there has not been a complete, turnkey solution for in-car iPhone integration that average users can go out and purchase with ease. The reason is simple: though the iPhone is supposed to be Apple's "best iPod ever," it actually doesn't work properly with many of

Question: Q: iphone in car solution. Is there a recommended in car solution for the iphone - I want to use it as a bluetooth device to play music and answer phone calls through my existing car stereo speakers without having to plug an adapter or cable into my iphone every time I get in the car. I have seen the following: -IO Play.

### **iphone in car solution - Apple Community**

All replies. When I link my iPhone to the Parrot via bluetooth and connect it to the car stereo, any incoming calls will stop the music playing thru the Alpine unit and route the calls thru the loudspeakers. It's very simple to set up and by connecting the iPhone via a cable, (as opposed to wireless) means that the iPhone is getting charged during the journey.
