1. Background. It has been noted recently that the world's electricity systems are starting to "decentralize, decarbonize, and democratize", in many cases from the bottom up. These trends, also known as the "three Ds", are driven by the need to rein in electricity costs, replace aging infrastructure, improve resilience and reliability, reduce CO 2 emissions to mitigate climate change ...

In recent years, information technology has had a profound effect on human resources (HR) processes and practices. However, relatively little research has examined its effectiveness, and most of the existing studies have not assessed the degree to which these new systems enable organizations to reach their HR goals of attracting, motivating and retaining employees.
