Think about how many handsets you need. If you live in a small house or apartment, a single handset will probably suffice. However, many people like to have at least two, especially in a home with more than one story, so they don't have to run up or down the stairs when they hear the phone ringing.

And yes, you can connect your whole house to VoIP [§8], and you can continue to use all of the phones that you are using right now. Nothing changes. You just plug your new VoIP device into a spare port on the router connected to your Internet modem. Think of switching to VoIP as simply switching to a new local & long distance phone carrier. As of early 2014, 38% of homes no longer have POTS ...
