At the South Pole, two animated penguins are fishing through a hole in the ice. The first penguin only likes blue fish. The second penguin does not care what colour the fish are as long as they are triangular. When they catch fish which are neither blue n...

An introduction to Venn diagrams - TES Resources

A typical Venn diagram looks like the picture on the left. One circle represents the set A, whilst the other represents B. The section where the two circles cross over is for all things that are contained in both sets, i.e. it is $A \cap B$. The box is called the universal set and is denoted by the Greek letter ξ , and it contains all of the objects we're concerned with, including objects that ...

Sets and Venn Diagrams GCSE Revision and Worksheets ...

Yet another way, with using `%in%` and boolean vectors of common elements instead of `intersect` and `setdiff`. I take it you actually want to compare two vectors, not two lists - a list is an R class that may contain any type of element, while vectors always contain elements of just one type, hence easier comparison of what is truly equal. Here the elements are transformed to character strings ...
