The Early Algebra Research Project. The Early Algebra Research Project began in 1996 under the direction of Thomas Carpenter, director of the National Center for Improving Student Learning and Achievement in Mathematics; Megan Loef Franke, an associate professor at the University of California, Los Angeles, and director of Center X: Where Research and Practice Intersect for Urban School ...

It's Elementary: Introducing Algebraic Thinking Before ...

Logical consequence (also entailment) is a fundamental concept in logic, which describes the relationship between statements that hold true when one statement logically follows from one or more statements. A valid logical argument is one in which the conclusion is entailed by the premises, because the conclusion is the consequence of the premises. The philosophical analysis of logical ...

An important use of technology is its capacity to create new opportunities for curriculum and instruction by bringing real-world problems into the classroom for students to explore and solve; see Box 9.1. Technology can help to create an active environment in which students not only solve problems, but also find their own problems.
