This page will compare the devices, development tools, and IDEs all together. However, to prevent this article from getting overwhelmingly long, I've created review pages for each device that cover way more details about the architecture — along with more complete testing notes, different benchmarking variations, and in-depth assessment.

Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.
