My task is to write a program to take a input from a user which in this case is a name (forename & surname) and create a VB 2005 program to capitalise the first letter of the first name and surname although also ensure that the remainder of the name is lower case.

Visual Basic 2005 - IT Answers

I am creating an if style book, where you have to go page to page keeping track of things like hitpoints, gold and fight. Along the way you will get into fights with monsters. I need a fighting system. Ideas: Random Number gen (1-4) + Level (0-6) = "Attack score" this takes off an amount of hitpoints from the foe. Then the foe does the same against you.
