Students will practice problems independent of my direction. (See Independent Practice) Students are grouped heterogeneously, so there may be students in the same group using different strategies to rewrite the expression. I will encourage discussion (MP3) among students so they have an opportunity to see how another student may be approaching the problem differently, but still have the same answer.

Subitizing is the ability to quickly identify the number in a group of objects without individually counting the objects. Subitizing is a concrete way to explore composing and decomposing numbers. Students will see dot patterns in different ways, and that is a great thing. When showing students 6, made from a pyramid students might see 3 and 3, 5 and 1, or 3 and 2 and 1.
