We get clearance-related questions in almost all threads on this site, so we thought we'd occasionally create a separate Q&A thread. Here, you can ask questions about clearance investigations, how to get a clearance, reinvestigations, adjudications, or any topic you are looking for an answer to.

Ask Your Clearance Questions | ClearanceJobs Blog

Information hiding (or more accurately encapsulation) is the practice of restricting direct access to your information on a class. We use getters/setters or more advanced constructs in C# called properties. This lets us govern how the data is accessed, so we can sanitize inputs and format outputs later if it's required.. The idea is on any public interface, we cannot trust the calling body to

Yes. You can use your Cash Passport to shop online (within the limits and restrictions of your card) at any merchant that accepts Mastercard. By using a Cash Passport loaded with the currency that the online site trades in, you know exactly what your purchase will cost and won't be stung by unknown exchange rates, as may happen if you used your domestic credit or debit card.
