A virtual learning environment (VLE) is a system that creates an environment designed to facilitate teachers' management of educational courses for their students, especially a system using computer hardware and software, which involves distance learning. In North America, a virtual learning environment is often referred to as a "learning management system" (LMS).

History of virtual learning environments - Wikipedia

One of our earliest childhood memories is learning to ride a bike. We can all remember our parents equipping us with a bike and maybe a helmet depending on which era we learned to ride.

Safety Resources | EnPro Learning System

The most common form of machine learning, deep or not, is supervised learning. Imagine that we want to build a system that can classify images as containing, say, a house, a car, a person or a pet.
