Experiment #8 - properties of Alcohols and Phenols Introduction As has been mentioned before,  
over 20 million organic compounds have been identified. If each substance had to be studied as an  
entity completely separate from all the other substances, the study of organic chemistry as a whole  
would be impossible; that

### **Experiment #8 - properties of Alcohols and Phenols**

we done the Classification and Identification of Alcohols and Phenols experiment in lab about two  
days ago. we were totally confused , the lecturer had nothing prepared. our results were all wrong  
:( there is a lab report due in for next week. i was looking for good lab reports on the same  
experiment, but couldn't find any that include discussions and conclusions :( can any one send me  
links to ...
