Managerial Accounting and Managerial Accounting Practices

Cost accounting is the process of recording, classifying, analyzing, summarizing, and allocating costs associated with a process, after that developing various courses of action to control the costs. Its goal is to advise the management on how to optimize business practices and processes based on cost efficiency and capability. Cost accounting provides the detailed cost information that ...

Cost accounting - Wikipedia

"Cost drivers are the structural determinants of the cost of an activity, reflecting any linkages or interrelationships that affect it". Therefore we could assume that the cost drivers determine the cost behavior within the activities, reflecting the links that these have with other activities and relationships that affect them.
