The LED Falcon Floodlight series uses our custom wide beam profile to put the light where it's wanted and not in your neighbour's property. By using an asymmetric 85°x135° beam profile we can take the wasted light that is normally produced by conventional floodlights and direct it where it's needed, giving you a higher luminance while delivering excellent uniformity and minimising glare.

LED Track Light - Low-Carbon Lighting&Technology Co.,Ltd.

An LED lamp or LED light bulb is an electric light for use in light fixtures that produces light using one or more light-emitting diodes (LEDs). LED lamps have a lifespan many times longer than equivalent incandescent lamps, and are significantly more efficient than most fluorescent lamps, with some LED chips able to emit up to 303 lumens per watt (as claimed by Cree and some other LED ...

Lighting Catalog - AAINY

A light-emitting diode (LED) is a semiconductor light source that emits light when current flows through it. Electrons in the semiconductor recombine with electron holes, releasing energy in the form of photons.This effect is called electroluminescence. The color of the light (corresponding to the energy of the photons) is determined by the energy required for electrons to cross the band gap ...

Still New. Until recently the most energy-efficient and widely-available form of domestic lighting has been fluorescent; initially in somewhat harsh strip-lights for the kitchen and garage/shed, but more lately as versatile compact fluorescent lamps (CFL) shaped to fit conventional bayonet or screw light fittings and with excellent colour and low price.

LED Lighting: Mini Reviews - Earth Notes

The ever increasing demand for high quality LED light has encouraged many lighting manufacturers in India to enter this industry. In fact, a lot of companies are currently offering a wide range of LED lighting products that are immensely efficient and eco-friendly when compared to standard incandescent lamps (ICLs) and fluorescent lamps (FTLs/CFLs).
