Introduction and overview of responses. For a millennium, universities have been considered the main societal hub for knowledge and learning. 1 And for a millennium, the basic structures of how universities produce and disseminate knowledge and evaluate students have survived intact through the sweeping societal changes created by technology—the moveable-type printing press, the Industrial ...

This article presents a model of reflective writing used to assess a U.S. general education first-year writing course. We argue that integrating reflection into existing assignments has three potential benefits: enhancing assessment of learning outcomes, fostering student learning, and engaging faculty in professional development.

"Teaching to the test" is a colloquial term for any method of education whose curriculum is heavily focused on preparing students for a standardized test. Opponents of this practice argue that it forces teachers to limit curriculum to a set range of knowledge or skills in order to increase student performance on the mandated test.

Giving Voice to Values (GVV) is an innovative approach to values-driven leadership development in business education and the workplace. Rather than a focus on ethical analysis, the Giving Voice to Values (GVV) curriculum focuses on ethical implementation and asks the questions: "What if I were going to act on my values?"
