Name: Page 1 of 2 Planet Riddles - SuperTeacherWorksheets

My family and I usually travel to the US during winter (only time of the year available for me to go on vacation due to my job.) We have found a lot of nice cities along the way but always rainy and cloudy: Miami, LA, San Diego, Orlando. I was wondering where else could we go and try without dealing the lousy climate.

What is the warmest vacation spot in ... - answers.yahoo.com

Hot, Dry and Cloudy Planet This artist's concept shows a cloudy Jupiter-like planet that orbits very close to its fiery hot star. NASA's Spitzer Space Telescope was recently used to capture spectra, or molecular fingerprints, of two "hot Jupiter" worlds like the one depicted here.
