Why a Scientific Format? The scientific format may seem confusing for the beginning science writer due to its rigid structure which is so different from writing in the humanities. One reason for using this format is that it is a means of efficiently communicating scientific findings to the broad community of scientists in a uniform manner.

The first system referred by Telles is that of the Brazilian Institute of Geography and Statistics (IBGE). In the Census, respondents may identify their ethnicity or color from five categories: branca (white), parda (brown), preta (black), amarela (yellow) or indígena (indigenous). The term parda needs further explanation; it has been systematically used since the Census of 1940.
