Study Guide for Maths Formulary - Cleave Books

If you want to round, the rounding always comes at the end. If you don't do this, you get rounding errors. Also, since the bottom one has only one significant digit, that means that your answer would actually be 10 cm, instead of 11.9 cm (which, if you're going off of all of the lengths and angles besides the bottom one, is still not rounded well.
