Merely said, the writing binary formulas worksheet page 54 answers is universally compatible behind any devices to read.

Writing Binary Formulas Worksheet Page

remove_timezone: Excel doesn't support timezones in datetimes/times so there isn't any fail-safe way that XlsxWriter can map a Python timezone aware datetime into an Excel datetime in functions such as write_datetime(). As such the user should convert and remove the timezones in some way that makes sense according to their requirements. Alternatively the remove_timezone option can be used ...
