MyPaint is an easy-to-use painting program which works well with Wacom graphics tablets and other similar devices. It comes with a large brush collection including charcoal and ink to emulate real media, but the highly configurable brush engine allows you to experiment with your own brushes and with not-quite-natural painting.

Service design is the activity of planning and organizing people, infrastructure, communication and material components of a service in order to improve its quality and the interaction between the service provider and its customers. Service design may function as a way to inform changes to an existing service or create a new service entirely. The purpose of service design methodologies is to ...

Service design - Wikipedia

Birch Bark Canoe Project: In the late summer of 2010, three friends and I realized a plan that was 3 years in the making: to paddle part of the old fur trade route in Northern Saskatchewan, and to do so in traditional birch bark canoes. Of course, you need a canoe to do so. To learn more about the trip and the construction of the canoe, click on the picture above.

1) Evaluating Instructions - Gather together your collection of instructions, and share them with the children. Ask them to read the instructions and discuss what they are for. They should also evaluate the instructions in terms of ease of use (Are the instructions clear? Would you be able to follow them to achieve the desired outcome?) and presentation (Are the instructions presented well?)
