Best Answer: I think your first step is make sure the compressor is comming on (as I assume this is a heat pump) if the compressor is not comming on you may need a compasitor or it could be the reversing valve it colud be low in freon also most heat pumps have electric stripps to use in an emergency and a part of these stripps will come on when this unit goes into defrost.

**Rudd HVAC unit.. heat inop? | Yahoo Answers**

Best Answer: From your description, it would seem the unit is what is called a "gas package unit". These types of A/C and heating units contain all the air conditioning and heating components in one "package". Since the gas company put a sign on the unit, my guess is the "four pipe looking things" are the ...
